The IACA Industry Guidelines

- ✓ While each country is faced with certain unique issues that relate to the issuance and usage of currency within their country, there are a number of common issues that must be addressed when designing a new banknote series.
- ✓ The objective of producing these Guidelines was to establish a document introducing the tasks involved and decisions to be made by Bank Note Issuers. The document and the appendices therein are offered for Guideline purposes only, to those who have recently become responsible for Banknote Design & Issue.
- ✓ This document serves as a general guideline and is not intended to nor does it address all aspects of note design, printing, or processing.
- ✓ Suggestions as to future improvements can be made by email to IACA@currencyaffairs.org
